FEJ520JFH

Intended use

Your BLACK+DECKER FEJ520JFH Dustbuster® hand-held vacuum cleaners have been designed for vacuum cleaning purposes. These appliances are intended for household use only.

Read all of this manual carefully before operating the appliance.

Safety instructions**Warning! Read all safety warnings and all instructions.**

Failure to follow the warnings and instructions listed below may result in electric shock, fire and/or serious injury.

- ◆ The intended use is described in this manual. The use of any accessory or attachment or the performance of any operation with this appliance other than those recommended in this instruction manual may present a risk of personal injury.
- ◆ Retain this manual for future reference.

Using your appliance

- ◆ Do not use the appliance to pick up liquids or any materials that could catch fire.
- ◆ Do not use the appliance near water.
- ◆ Do not immerse the appliance in water.
- ◆ Never pull the charger lead to disconnect the charger from the socket. Keep the charger lead away from heat, oil and sharp edges.
- ◆ This appliance can be used by children aged from 8 years and above and persons with reduced physical, sensory or mental capabilities or lack of experience and knowledge

if they have been given supervision or instruction concerning use of the appliance in a safe way and understand the hazards involved. Children shall not play with the appliance. Cleaning and user maintenance shall not be made by children without supervision.

Inspection and repairs

Before use, check the appliance for damaged or defective parts. Check for breakage of parts, damage to switches and any other conditions that may affect its operation.

- ◆ Do not use the appliance if any part is damaged or defective.
- ◆ Have any damaged or defective parts repaired or replaced by an authorized repair agent.
- ◆ Regularly check the charger lead for damage. Replace the charger if the lead is damaged or defective.
- ◆ Never attempt to remove or replace any parts other than those specified in this manual.

Additional safety instructions**After use**

- ◆ Unplug the charger before cleaning the charger or charging base.
- ◆ When not in use, the appliance should be stored in a dry place.
- ◆ Children should not have access to stored appliances.

Residual risks

Additional residual risks may arise when using the tool which may not be included in the enclosed safety warnings. These risks can arise from misuse, prolonged use etc.

Even with the application of the relevant safety regulations and the implementation of safety devices, certain residual risks can not be avoided. These include:

- Injuries caused by touching any rotating/moving parts.
- Injuries caused when changing any parts, blades or accessories.
- Injuries caused by prolonged use of a tool. When using any tool for prolonged periods ensure you take regular breaks.
- Impairment of hearing.
- Health hazards caused by breathing dust developed when using your tool (example:- working with wood, especially oak, beech and MDF.)

Chargers

Your charger has been designed for a specific voltage. Always check that the mains voltage corresponds to the voltage on the rating plate.

Warning! Never attempt to replace the charger unit with a regular mains plug.

- Use your BLACK+DECKER charger only to charge the battery in the appliance with which it was supplied. Other batteries could burst, causing personal injury and damage.
- Never attempt to charge non-rechargeable batteries.
- If the supply cord is damaged, it must be replaced by the manufacturer or an authorised BLACK+DECKER Service Centre in order to avoid a hazard.
- Do not expose the charger to water.
- Do not open the charger.
- Do not probe the charger.
- The appliance/battery must be placed in a well ventilated area when charging.

Electrical safety

Symbols on the charger

Read all of this manual carefully before using the appliance.

This tool is double insulated; therefore no earth wire is required. Always check that the power supply corresponds to the voltage on the rating plate.

Short circuit proof safety isolating transformer. The mains supply is electrically separated from the transformer output.

The charger automatically shuts off if the ambient temperature becomes too high. As a consequence the charger will be inoperable. The charging base must be disconnected from the mains supply and taken to an authorised service centre for repair.

The charging base is intended for indoor use only.

Labels on appliance

The following symbols appear on this appliance along with the date code

Read all of this manual carefully before using the appliance

Only use with charger S010Q 23

Features

This tool includes some or all of the following features.

1. On/off power switch
2. Handle
3. Nozzle
4. Pull out crevice tool
5. LED charging indicator
6. Dust bowl
7. Push in brush
8. Floor extension release clip
9. Floor extension tube
10. Floor head release clip
11. Flip down brush
12. Floor head
13. Wall bracket
14. Charger
15. Charging port

Use

Switching on and off (Fig. A)

- ◆ Press the button to turn, on the unit operates in slow speed, low power mode, conserving the battery life.
- ◆ Press the button again, and the unit goes to a BOOST mode.
- ◆ Pressing the button again will turn the product off.

Using the pull out crevice tool (Fig. B,C)

- ◆ Extend the crevice tool (4) as shown in figure C, until it clicks in place. The push in brush (7) can then be fitted if required for dusting and upholstery cleaning.
- ◆ To retract the crevice tool (4) press the crevice tool release button (4a) allowing it to return to its normal position (Fig. B).

Fitting the floor extension tube (Fig. D)

- ◆ Slide the nozzle (3) into the floor extension tube (9) until you hear an audible 'click' as shown in figure D.
- ◆ The floor extension tube is supplied with a flip down brush (11) for cleaning difficult to reach areas (Fig.E).

Fitting the floor head (Fig. F)

- ◆ Slide the floor extension tube (9) onto the floor extension head (12) until you hear an audible 'click' as shown in figure F.

Floor sense feature

The appliance is fitted with a unique floor sensing feature. It senses thick pile carpet and automatically goes from low speed to BOOST mode for greater cleaning performance.

Removing and clearing hair from the beater bars (Fig. G, H)

- ◆ Depress the beater bar unit (16) release button (17) as shown in figure G.
- ◆ The beater bar (18) can now be removed. The end pieces are also removable allowing you to clear any hair or other debris that may have accumulated during use (Fig. H).

Charging (Fig. I)

The appliance can be charged either as a single unit or while attached to the floor extension.

Wall Mounting

The wall mount (13) can be attached to a wall to provide a convenient storage for the appliance.

Warning! When fixing to a wall, make sure that the fixing method is suitable for the wall type and is appropriate to the weight of the appliance.

- ◆ Mark the location of the screw holes (within reach of an electrical outlet for charging the vac while it is on the wall bracket).
- ◆ Place the charger (14) into the charging port (15) and plug into the electrical outlet.
- ◆ Switch the electrical outlet on. The LED charging indicator (B) will illuminate.

A. Filter sensor

Whenever a filter is blocked and needs cleaning, the red filter LED (A) in the handle will illuminate. Clean fine dust from filter (See section on 'cleaning filters' in this manual).

B. LED Charging display

Battery icon will illuminate when appliance requires charging. LED display indicates state of charge (See LED pattern chart in this manual).

C. BOOST mode

Illuminates when the appliance is in BOOST mode allowing you to operate at higher power.

	Charger Fault
	Battery Hot

Replacing the filters

The filters should be replaced every 6 to 9 months and whenever worn or damaged. Replacement filters are available from your BLACK+DECKER dealer (cat.noVPF20)

Protecting the environment

Separate collection. Products and batteries marked with this symbol must not be disposed of with normal household waste.

Products and batteries contain materials that can be recovered or recycled reducing the demand for raw materials. Please recycle electrical products and batteries according to local provisions. Further information is available at www.2helpU.com

Technical Data

	FEJ520JFH
Voltage	18V
Watt Hours	36Wh
Weight	2.5Kg

Cleaning the filters (Fig. J, K, L, M, N)

- ◆ Press the dust bowl release button (19) (Fig. J)
- ◆ Eject the dust bowl (6) (Fig.K)
- ◆ Lift the filter assembly (20) using the metal handle from the dust bowl (6) (Fig.L).
- ◆ Empty the dust bowl by lightly shaking over a dustbin.
- ◆ The filter (21) can now be removed from the pre filter (20) (Fig. M).
- ◆ Empty any remaining dust from the dust bowl.
- ◆ Rinse out the dust-bowl with warm soapy water.
- ◆ Wash the filters with warm soapy water (Fig. N).
- ◆ Make sure the filters are dry
- ◆ Refit the filters onto the appliance.
- ◆ Close the dust-bowl. Make sure the release latch (19) clicks into place.

Note: The FEJ520JFH unit is equipped with HEPA filter (21) to aid in protection from allergies.

Warning! Before performing any maintenance or cleaning on the appliance, unplug the appliance.

From time to time wipe the appliance with a damp cloth. Do not use any abrasive or solvent-based cleaner. Do not immerse the appliance in water

Maintenance

Your BLACK+DECKER cordless appliance has been designed to operate over a long period of time with a minimum of main-tenance. Continuous satisfactory operation depends upon proper tool care and regular cleaning.

Warning! Before performing any maintenance on cordless appliances:

- ◆ Run the battery down completely if it is integral and then switch off.
- ◆ Unplug the charger before cleaning it. Your charger does not require any maintenance apart from regular cleaning.
- ◆ Regularly clean the ventilation slots in your appliance/ charger using a soft brush or dry cloth.
- ◆ Regularly clean the motor housing using a damp cloth. Do not use any abrasive or solvent-based cleaner.
