

MB150UC Ultimate Cart

ASSEMBLY INSTRUCTIONS

- Step 1** Place the Locking Top and Drawer Unit (#1) on its back. Carefully open the Locking Top and lay it back against the ground.
- Step 2** Slide chrome legs (#2) into square holes in corners of Locking Top (#1) until bolt holes are aligned at top of legs.
- Step 3** Determine on which side of the cart the handle will be mounted. Then, insert two long bolts (#7) with two flat washers (#10) into the aligned holes in handle, locking top and legs. Fasten nuts (#9) using flat washers (#10) and lock washers (#11). Repeat this procedure for other corners using short bolts (#8).
- Step 4** Slide bottom tray (#15) onto legs and fasten as in Step 3.
- Step 5** Insert casters (#3, #4) into the hole of plastic inserts (#5).
NOTE: Insert the two locking wheels (#3) at the same end of the cart.
- Step 6** Return cart to upright position.
- Step 7** Using the screws (#16) provided, install drawer handles by aligning pre-drilled holes in drawers with slots in handle. Tighten all screws securely.

OPERATION OF SAFETY DEVICE

When the lid is fully opened, the safety device will automatically engage to prevent accidental closing. To disengage safety device, first ensure both folding side step trays are completely stowed inside box and all drawers are completely closed. Then, push the bottom portion of the device until it aligns with the open slot and slightly close the lid. Now, once hands and objects are cleared, the lid can be lowered to its fully closed and locked position.

NOTE: Do not attempt to close the box lid without depressing the safety device. Permanent damage to the lid will result!
